

MAJOR ROADS

This map displays the major roads and highway funding plan for Indiana from 2006 to 2015. The state is divided into counties, each labeled with its name. Major roads are highlighted in red, indicating new construction, while other roads are shown in green, indicating major pavement preservation. A network of black lines represents proposed alignments. Yellow lines delineate county boundaries. The map includes a legend in the bottom right corner, a scale bar (0 to 40 miles), and a north arrow. The text 'MAJOR ROADS' is written vertically on the left side of the map. The legend identifies the following categories: New Construction (red line), Major Pavement Preservation (green line), Proposed Alignment (black line), County Boundary (yellow line), and Incorporated Area Limits (Estimated) (grey shaded area). The map also shows the Ohio River and the location of major cities like Indianapolis, Fort Wayne, and Evansville.

10 - Year INDOT Highway Funding Plan
2006 to 2015

- New Construction
- Major Pavement Preservation
- Proposed Alignment
- County Boundary
- Incorporated Area Limits (Estimated)
